

Dear Planning & Development Committee,

I would like you to hear me as one of your constituents. I would like you to vote against HB 5429. I want the towns to retain the right for local control of our zoning. It makes no sense to have one size fits all for the 169 very different towns in CT! I live in Durham CT and I would like to see the last farms saved from development. No farms, no food!

Respectfully submitted,

Chari Baldwin
